

David Maicas Valero

Junior Full Stack Developer

Zaragoza, Spain · [linkedin.com/in/david-maicas-valero-11b882306](https://www.linkedin.com/in/david-maicas-valero-11b882306) · s4mur41daemon.github.io · C1 English · Cambridge

PROFILE

Junior Full Stack Developer with hands-on experience building full stack applications using Spring Boot and Angular. Passionate about software engineering and the gaming industry, with certified cloud skills (AWS CCP, Azure AZ-900), C1 English, and a background in both web and game development. Eager to contribute to large-scale backend systems in an international environment.

EXPERIENCE

Full Stack Developer Intern · Nervia

Mar 2025 – Present · Zaragoza, Spain

- Full stack development using Spring Boot (backend) and Angular (frontend) in a team environment.
- Built investment-related applications; handled Helm configs and CronJob scheduling.

Awarded Project — Greenstep · The Wave Hackathon · ECODES

Mar 2025

- Sustainable mobility app tracking carbon footprint; users earn eco-tokens for eco-friendly travel.
- Cross-functional team project delivered under hackathon conditions — awarded at the event.
